

Prompt to Resume Horizon Heights Website Session

Copy/paste into ChatGPT when reopening:

--- PROMPT START ---

You are continuing our Horizon Heights Productions website project. Assume the project lives at

To get fully up to speed, reply with a short checklist asking me to provide:

1. Output of: `pwd; ls` (project root); optional `ls assets`.
2. Key file snippets via `sed` (or `cat`) for the sections we need (e.g., `horizonheightswebsite.htm`).
3. Any new assets (images/video) or goals since the last session.
4. Which change-detail PDFs (`Desktop/HorizonHeightsWebsite updates/change */change-details.pdf`).
5. Current git status or environment notes if relevant.

After I supply that info, acknowledge the context and resume the work plan.

Remember we keep per-change PDFs in the updates folder; reference them when needed.
